OPTION 1: STUDENT DEPENDANT COVER

If your child is a full-time student, they can continue under your membership at no extra charge. They can stay covered until the day before they turn 25, they stop studying full-time, they are married or in a de facto relationship, or they're no longer primarily reliant on you for maintenance or support, whichever occurs earlier. You'll need to re-register them each year when we contact you to continue this cover.

Student Dependant Declaration

I declare that the student named is unmarried, not living in a de facto relationship, is under 25 years of age, and primarily reliant on me for maintenance and support, and is a full-time student, attending the institution named during the current academic year. I am aware that to remain covered my child needs to be re-registered every year they are a full-time student until their 25th birthday and cover will cease if they get married, enter a de facto relationship, or otherwise cease to be reliant on me for maintenance or support before their 25th birthday.

OPTION 2: EXTENDED FAMILY COVER

If your child is not studying full time, you can still keep them on your membership. They can stay covered until the day before they turn 25, or are married or in a de facto relationship, whichever occurs earlier. Simply extend your family cover for an additional charge. This option is only available on selected covers.

If you would like Extended Family Cover, simply call **13 13 34** to check if your cover is eligible.

Extended Family Cover Declaration

I declare that the child named is unmarried, not living in a de facto relationship and is under 25 years of age. I am aware that by signing this form an additional charge will be added to my existing premium. My child will then be covered until their 25th birthday, unless they get married or enter a de facto relationship before their 25th birthday.
